MULTICLEANER

HIGH-PERFORMANCE CONCENTRATED MULTIPURPOSE CLEANER AND DEGREASER FOR MARINE, INDUSTRIAL AND FACILITY MAINTENANCE APPLICATIONS

DESCRIPTION & APPLICATIONS:

MULTICLEANER is a highly concentrated, biodegradable, water-based cleaner developed for a wide range of marine, industrial, and facility maintenance applications. Its advanced surfactant technology rapidly penetrates and removes dirt, grease, oil, grime, and other contaminants from surfaces, equipment, and work areas.

The versatile formulation delivers excellent cleaning performance with flexible dilution ratios, providing economical operation without leaving oily residues. Suitable for tank cleaning, workshops, accommodation areas, galleys, decks, machinery, and general maintenance cleaning, MULTICLEANER offers an effective and environmentally responsible solution for routine and heavy-duty cleaning tasks.

FEATURES & BENEFITS:

- Highly concentrated water-based cleaner and degreaser for economical operation.
- Rapidly penetrates and removes dirt, oil, grease, and general contaminants.
- Suitable for tanks, accommodation areas, galleys, decks, equipment, and work areas.
- Effective for both manual and mechanical cleaning applications.
- Good foaming characteristics for enhanced cleaning efficiency.
- Biodegradable, non-flammable, and easy to handle.
- Flexible dilution ratios help reduce chemical inventory and operating costs.

RECOMMENDED DOSAGE:

General Cleaning

Degree of Contamination	Dosage
Light	2%
Moderate	10%
Heavy	20%

Application Guidelines

Application	Dosage
Tank Cleaning	2 - 5%
General Cleaning	2 - 20%
Manual Spot Cleaning	Neat or As Required

OPERATING CONDITIONS:

Parameter	Recommendation
Contact Time	5 - 30 Minutes
Recommended Temperature	Ambient to 80°C
Water Type	Fresh or Seawater
Application Method	Spray, Mop, Brush, Sponge, Cloth or Immersion

CLEANING PROCEDURE:

Tank Cleaning
Prepare a 2-5% solution of MULTICLEANER in water and apply using spray or circulation cleaning methods. Cleaning efficiency may be enhanced by using solution temperatures up to 80°C.

General Cleaning
Dilute MULTICLEANER with water to a concentration between 2% and 20%, depending on the severity of contamination. Apply to the surface and rinse or wipe clean after use.

Manual Cleaning
Apply using a mop, brush, sponge, cloth, or immersion bath for smaller components. For heavily contaminated surfaces, allow a short contact time before rinsing or wiping clean.

High-Foam Applications
MULTICLEANER exhibits strong foaming characteristics. Foam generation should be considered when using automatic washing, circulation, or recirculation cleaning systems.

TYPICAL PROPERTIES:

Property	Typical Value
Appearance	Clear Liquid
Colour	Blue to Green
Odour	Pleasant
pH (Concentrate)	9.0 - 11.0
Specific Gravity @ 25°C	1.00 - 1.10
Solubility	Completely Miscible in Water
Flash Point	Non-Flammable
Biodegradability	Biodegradable

Typical values are provided for guidance only and should not be considered product specifications.

COMPATABILITY:

Suitable for painted, metal, vinyl, and most hard washable surfaces, including woodwork, decks, equipment housings, and general maintenance areas. Where compatibility is critical, test on a small area before full application.

SHELF LIFE:

24 Months from the date of manufacture when stored under recommended conditions.

STORAGE & HANDLING:

Store in tightly sealed original containers in a cool, dry, and well-ventilated area away from direct sunlight.

STANDARD PACKAGING:

- 25 L HDPE Pails
- 200 L HDPE Drums
