

Tank Cleaning.

SHERCLEAN TANK CLEANER

Fast-acting and highly effective tank cleaning compound formulated with petroleum solvents and advanced emulsifying surfactants

DESCRIPTION & APPLICATIONS:

A highly concentrated multipurpose cleaner and degreaser developed for marine tank cleaning and maintenance applications. Its powerful blend of emulsifying and detergent agents rapidly penetrates, disperses, and removes oil, grease, sludge, fuel residues, and other hydrocarbon contaminants from tanks, machinery spaces, and shipboard systems.The product is particularly effective for cleaning and gas-freeing fuel oil tanks, double-bottom tanks, cargo tanks, bilges, and engine rooms. Its excellent emulsification properties facilitate the removal of crude oil, CPP, DPP, and petroleum residues while reducing cleaning time and improving operational efficiency.Suitable for recirculation systems, tank washing machines, spray applications, immersion cleaning, and rock-and-roll cleaning methods, SHERCLEAN TANK CLEANER provides a versatile and economical solution for marine cleaning operations.

FEATURES & BENEFITS:

- Rapidlypenetrates, emulsifies, and removes oil, grease, sludge, fuel residues, and hydrocarbon contamination.
- Excellent cleaning and gas-freeing performance for fuel oil tanks, cargo tanks, bilges, and machinery spaces.
- Highly effective on crude oil, CPP, DPP, and petroleum-based cargo residues.
- Suitable for tank washing systems, recirculation cleaning, spray application, soaking, and rock-and-roll cleaning methods.
- Reduces cleaning time, labour requirements, and maintenance downtime.
- Free from nonylphenol ethoxylates (NPE) and formulated using biodegradable emulsifying agents.

RECOMMENDED DOSAGE:

- Tank Cleaning

Degree of Contamination	Dosage
Light Contamination	0.50%
Moderate Contamination	1.00%
Heavy Contamination	2.00%

- Direct Injection

Application	Dosage
Tank Washing Systems	0.5 - 2.0%

OPERATING CONDITIONS:

Parameter	Recommendation
Cleaning Time	2 - 8 Hours
Maximum Efficiency Temperature	60°C
Water Type	Fresh Water or Seawater

TYPICAL PROPERTIES:

Property	Typical Value
Appearance	Liquid
Colour	Amber
Odour	Characteristic
Density @ 25°C	0.95 - 1.05 g/cm³
Water Solubility	Completely Emulsifiable
Flash Point	Non-Flammable
Biodegradability	Readily Biodegradable

CLEANING PROCEDURE:

Tank Cleaning

- Strip and drain tanks completely before cleaning.
- Prewash with seawater or fresh water where required.
- Inject 0.5 - 2.0% SHERCLEAN TANK CLEANER into the cleaning system.
- Continue recirculation washing for 2 - 8 hours depending on contamination levels.
- Rinse thoroughly with water and inspect tank surfaces.

Spot Cleaning

- Apply neat or diluted product directly onto contaminated areas.
- Allow 10- 30 minutes of contact time.
- Flush using high-pressure water.
- Repeat if necessary for stubborn deposits.

Soak Cleaning

- Immerse components in cleaning solution.
- Allow deposits to soften and disperse.
- Rinse thoroughly with fresh water after cleaning.

STORAGE AND HANDLING:

Store in tightly closed containers in a cool, dry, ventilated place. See the latest SDS for safety details.

Typical values should not be considered product specifications.

COMPATIBILITY

Suitable for cargo and fuel oil tanks, bilges, machinery spaces, engine rooms, decks, bulkheads, and most steel or coated tank surfaces normally encountered in marine cleaning operations. Compatibility testing is recommended before use on specialty coatings or sensitive materials.

SHELF LIFE

24 Months from date of manufacture when stored under recommended storage conditions.

STANDARD PACKING

25 L & 200 L Steel Cans / Drums.
